

## Barron Lighting Group Introduces Loading Dock LED Lighting Solution

Glendale, AZ – January 16, 2018 – Barron Lighting Group, the parent company to Trace-Lite commercial and industrial lighting, announces the addition of its new LDL200 loading dock LED lighting solution.

"Barron Lighting Group is dedicated to the expansion of our product offering and to providing the best lighting solutions and services to our customers. To that end, I am pleased to announce Trace-Lite's new LDL200 LED loading dock light," said Alan Tracy, President of Barron Lighting Group.

Trace-Lite offers LED lighting solutions including wallpacks, flood lighting, garage/canopy lighting and high/low bays for indoor and outdoor commercial and industrial lighting applications. The addition of center baskets, strips, wraps, undercabinets and recessed downlights allows for a complete product offering perfect for new construction or retro-fits alike.

The LDL200 is Trace-Lite's solution for energy-efficient, low maintenance loading dock lighting. This rugged LED lighting fixture is designed with high performance Philips® LumiLed LED chips and precisely engineered UV-resistant optics. It has a narrow beam distribution that provides optimal brightness through the entire length of a trailer. The LDL200 fixture is IP65 Rated for outdoor use (optional mounting arm is damp location rated) and is available in an industrial safety yellow finish.

For more information about Trace-Lite's LDL200 loading dock LED light, visit the [webpage](#), download the [sales sheet](#), or download the [spec sheet](#).
