

Barron Lighting Group Announces New LED Highbay and Canopy

Barron Lighting Group Announces New LED Linear Highbay and Compact Canopy

Glendale, AZ – November 22, 2016 – Barron Lighting Group, the originator of the LED exit sign and brands such as Exitronix, Trace*Lite, specialtyLED and Indoor Grow Science, announces the addition of its new LHB LED highbay series and the expansion of its LED canopy series with the MC canopy.

The Trace*Lite MC (mini canopy) is a compact, slim 10” profile qualifying for DLC premium listing which maximizes utility rebates. The listed MC produces 4,845 lumens while consuming only 42 watts, all while dispersing an even light distribution with its specially engineered low-glare optic. Constructed of UV stabilized polymethyl methacrylate (PMMA), the lens optimizes visual comfort without sacrificing lighting efficacy. This unique configuration eliminates eye strain or distraction. Attention to tasks at hand at libraries, pharmacy drive-thrus, schools, parking garages and truck stops, for example, are enhanced by optimizing the quality of light within the environment. The durable and robust MC design allows for universal surface or pendant mount. A twelve inch transition plate is available for easy retrofit of larger HID or CFL fixtures.

Trace*Lite’s NEW LHB (linear highbay) series is offered in three wattage packages: 105w (2’x2’), 200w (2’x4’) and 320w (2’x4’), delivering up to 132 LPW efficacy. The LHB3 version delivers an industry leading 43,845 lumens at only 320w! The LHB series highbay is suitable for ambient temperatures up to 55°C with an L70 of 79,000 at 55°C. The LHB series is specifiable with options such as: 347/480VAC, battery backup and occupancy controls. Applications for the LHB series include commercial, gymnasium, industrial, hospitality, manufacturing, retail, warehousing and other applications that utilize a traditional HID or linear fluorescent highbay with mounting heights up to 50’.

"We are excited for the release of these key products to further expand our LED offerings for commercial, industrial, retail, multi-family and manufacturing industries," says Alan Tracy, owner, and president of Barron Lighting Group.

About Barron:

Barron Lighting Group manufactures comprehensive lighting solutions in LED and HID fixtures for commercial and industrial applications. Barron designed, engineered and manufactured the first LED exit sign, and in 1984 the company launched the Exitronix brand. The Trace*Lite division followed soon after and

7885 N Glen Harbor Blvd • Glendale, Arizona 85307 • 623.580.3948 • barronltg.com

enabled Barron to expand its offerings. With the introduction of specialtyLED division came custom and decorative LED lighting for both indoor and outdoor amazement.

Most recently, the Indoor Grow Science division added high-performance lighting for the horticultural industry. Barron's headquarters is located in Arizona and it has nine distribution warehouses across the U.S. to efficiently supply the lighting demands across the country.
