

Exitronix Innovates Emergency Lighting with Revolutionary Maintenance Features

Glendale, AZ – July 22, 2016 – Barron Lighting Group, the originator of the LED exit sign in the Exitronix brand, introduces the latest generation of emergency lighting, the SCL and CRL Series. Constructed of high quality steel, these compact designs deliver best-in-class optical performance and are packed with cost-saving maintenance features.

A tool-less, hinged door provides safe access to the 6V NiMH battery without exposure to line voltage. And the innovative, patent-pending numeric indicator display ensures error-proof fault/ status detection. Utilizing 3.6w fully adjustable LED lamp heads, these units lead the industry with maximum on-center spacing up to 60', and an exclusive 58deg wide beam lens delivers best min-to-max ratio for lower mounting height or shorter corridor applications. Brown-out, low voltage, overload and short circuit protection combined with a standard 5 year fixture/ 5 year pro-rated battery warranty, ensure these USA assembled units deliver long-lasting emergency lighting.

The SCL Series, designed for wall or stem mount applications, is a compact 9.1" x 5.3" and operates through a wide temperature range of 0-40C. The CRL Series, designed for recessed T-bar ceiling applications, also combines performance and dependability with a clean, architectural appearance.

"We listened to our customer's needs to provide a solution for performance and lowering ongoing maintenance repair time and costs for years to come," says Alan Tracy, owner, and president of Barron Lighting Group.

For more information about the SCL or CRL Series or any of the many quality lighting solutions from Barron Lighting Group, visit <http://www.barronltg.com> on-line. Find your local supplier on the lighting representative locator found under the Resources tab.

About Barron:

Barron Lighting Group manufactures comprehensive lighting solutions in LED, induction, fluorescent and HID fixtures to handle the most necessary and challenging commercial and industrial applications. Barron designed, engineered and manufactured the first LED exit sign, and in 1984 the company launched the Exitronix brand.

The Trace*Lite division followed soon after and enabled Barron to expand its offerings. With the introduction of specialtyLED division came custom and decorative LED lighting for both indoor and outdoor amazement.

Most recently, the Indoor Grow Science division added high-performance lighting for the horticultural industry. Barron's headquarters is located in Arizona and it has nine distribution warehouses across the U.S. to efficiently supply the lighting demands across the country.
